Title: The Next North Korea Threat: Submarines Armed with Nuclear Weapons

People Involved: Kim Jong Un

Summary:

Kim Jong Un may be able to start an underwater nuclear war against America using an SLBM (Submarine Launched Ballistic Missile). This SLBM launched by a Sinpo - C submarine can travel up to 750 miles from its launch point. Although the submarine is only being used for testing purposes, it can have a huge role in a possible nuclear war launching missiles.

Title: Supporter of proposed monorail system for Seychelles touts reduction in traffic, pollution; gov't not convinced.

People Involved: Barry Laine and Josef Francois

Summary:

Barry Laine wants to make a monorail in Seychelles to reduce traffic and pollution. The monorail (Anse Royale Express) may help ease the amount of smoke in the air. However, the government doesn't want to agree. Barry says " We can raise the money, that is not the problem. The main challenge is the government agreeing and understanding the aim behind the monorail," Thus, we know that the government doesn't agree
