Title: North Korea announces new, secret 'tactical weapon'

People Involved: Kim Jong Un

Summary:

Kim Jong Un visited a weapons facility to see the test of a new weapon. This announcement followed the statement that North Korea's capital, Pyongyang, would be building nuclear items. This is important news because if North Korea starts to build nuclear weapons, we might have to get in a war with North Korea, which isn't a good thing.

Title: "Unsafe Design": Indonesia Plane Crash Victims' Family Sue Boeing

People Involved: Rio Nanda Putrama, Zwing Silalahi

Summary:

Rio Nanda Putrama died on an airplane which was going to Pangkal Pinang. The Boeing 737 Max 8 has sensors that make the airplane auto-dive in certain situations, such as a stall. The sensor outside of the aircraft has read incorrect data which caused the aircraft to crash, killing 189 people. A lawsuit is held against Boeing because of this.
